

## AUTHOR CONTRIBUTION FORM

<b>Manuscript no:</b>	
<b>Title of the Manuscript:</b>	
<b>Corresponding Author</b>	

The right to authorship includes the following criteria. All the authors of the publication must certainly fulfill these conditions.

- Making important contributions to the formation, design, data collection and processing, analysis, or interpretation of the work idea,**
  - To be able to give approval for the work ready to be published,**
  - To acknowledge that the aforementioned study has been investigated, discussed, and concluded in accordance with scientific and ethical rules, so that he/she is entirely responsible for it.**
- The names of the authors fulfilling the 3 criteria above must be stated in suitable order. Authors who do not meet all of the conditions can be specified under the heading "Thanks" in the end of the article.
  - The responsible author should provide data and additional information, if necessary, after publication of the work

The terms set forth herein have been arranged in accordance with the guidelines of the Council of Science Editors (CSE) and International Committee of Medical Journal Editors (ICMJE). ([www.cse.org](http://www.cse.org), [www.icmje.org](http://www.icmje.org)). For further details please see: <http://www.councilscienceeditors.org/i4a/pages/index.cfm?pageid=3376>
